

New Product Introduction

Technical Support 866-931-8021

New Part Number: *ISHD571 Firmware Rev. 807b*

Description of new product: This new Firmware revision 807b adds CDC mode support. This allows the GateWay to connect to the radio as a CD changer instead of a Sat tuner. Adding over 60% more applications to the compatibility list, by providing connection for vehicles without satellite radio support (found mostly in vehicles with DX or LX trim level)

iPod®/iPhone® and Auxiliary Audio Input Interface with HD Radio™, Sirius satellite radio and Bluetooth expandability options (Sat mode only) for Select Honda and Acura Vehicles

NOTE: CDC mode does offer track control from the head unit, but does not provide text on the factory radio. CDC text is not supported by Honda radio hardware.

Adaptor Function:

- Plug and Play installation maintains factory wiring integrity
- Secondary input for additional audio source
- Expandable with HD Radio, Satellite Radio, and Bluetooth (Sat mode only)
- Retains factory installed Satellite radio (select applications)
- Aux mode charges, and retains click wheel or touch screen functionality
- Charges Apple devices at 5 Volts and without any error messages

Included with Product:

- (1) GateWay interface
- (1) 5 Volt iPod/ iPhone charging and control cable (11Ft.)
- (1) Auxiliary audio input cable (3.5mm and RCA)
- (1) Plug-and-Play Vehicle connection harness

Compatibility: Please see www.pac-audio.com for all applications for this product and to download the new firmware to update a current GateWay inventory to support CDC mode.

Configuration: Please see the instruction manual for all configuration details of this new firmware. DipSwitch #3 on to use this CDC emulation mode.

UPC: *609098802468*
